Pilgrim Hospital	0	York Hospital	13

Up to the 1st May 2011 we had recruited 3,184 patients into the study.

Recruitment

SAEs

When completing SAEs can you please ensure that all relevant sections of the form are completed; including the date and of event and category of event. If the patients has been re-admitted to hospital can you please include admission and discharge dates.

Forms need to be **faxed** to the co-ordinating centre (**0300 123 0894**) and to our Sponsor (**01782 441651**).

Out of Hours Contact Numbers

If you need to contact the trial outside of normal working hours the contact numbers are:

07740 372 852 or
07734 068 408

Contact Details

As we follow patients up by postal questionnaire at 3, 6 and 12 month post randomisation, from our co-ordinating centre it is really important that we have full contact details for the patient, an alternative contact and the GP.

If you can please ensure these are completed onto the system and you notify us if you become aware of any changes in these details. We have needed to contact sites to request an update on a patients GP details – so many thanks for your help in trying to locate this new information for us.

Consent Forms

We are aware that the issue of where to file consent forms has been raised at several sites. Can we please remind sites that our consent forms states the original should be filed in the medical notes and a copy given to the patient and a copy in the trial's site file.

Advice from the UK regulatory authority, MHRA and UK Ethics, NRES is that filing the form in either the patients medical notes or the trial's site file is acceptable. Our Sponsor, North Staffordshire Combined Healthcare NHS Trust, have agreed that we should remain with our statement on the consent form and the original to be filed in the patients medical notes.

Dates for the Diary
